

**ATTINI FRAMEWORK**  
**SOFTWARE END USER LICENSE AGREEMENT**  
**IMPORTANT- PLEASE READ CAREFULLY**

Attini Cloud Solutions International AB is a corporation formed under the laws of Sweden ("Licensor"). Licensor is the owner or the licensee of all intellectual property rights in and to the computer program called the Attini Framework (the "Product"). It is a deployment framework for Cloud IT Environments designed to create, manage, run, and modify Cloud resources using Infrastructure as Code, other IT Services or software.

This End-User License Agreement ("EULA") formalizes the relationship between Licensor and You, the Licensee. It is a contract setting forth rights and obligations with respect to the Product which is licensed to You either without charge or for a fee as described below.

This EULA covers both for limited utilization and for expanded use for which charges are imposed based on utilization, according to the pricing model as set forth on Attini's website and associated documentation, as updated from time to time.

The Product is protected by intellectual property laws and treaties, (including exported data even if downloaded) including laws and/or treaties relating to copyrights and patent rights. The Product is not freeware without restrictions. It is licensed to You, not sold, for use subject to this license agreement. The Product may contain third-party technologies, whereas such third-party technologies may be subject to open-source software licenses.

If you have accessed the Product on behalf of your employer or on behalf of another individual or business entity, You represent and warrant that You have the authority to bind that employer or other business entity to these terms and conditions, and Your agreement to these terms and conditions will be treated as the agreement of Your employer, university or other individual or business entity. Accordingly, references to "You" or "Your" means both You and Your employer or other business entity. If You are managing services for a customer, the Product may be used by customers of Your customers, and they, too, shall be responsible for payments due Attini.

Before downloading the Product, You can optionally register your email address. Attini is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and services you requested from Attini. From time to time, we would like to contact you about our products and services, as well as other content that may be of interest to you. You can unsubscribe from these communications at any time. For more information on how to unsubscribe, our privacy practices, and how we are committed to protecting and respecting your privacy, please review our Privacy Policy.

The term "Product" means both the Product and associated applications or services, libraries as well as any add-on components, web services and/or supplements that Licensor may provide to You or make available in the future. Licensor shall not be under any obligation to provide You any of the foregoing, nor any updates or upgrades, but, if it does, it shall be the owner of all intellectual property rights contained therein; and, to the extent that such items are not accompanied by a separate license agreement, the terms and conditions of this EULA shall apply.

The following components may be incorporated into the Product: images, animations, audio, text, and "applets." Licensor is the owner or licensee of all the foregoing components, and they are licensed to You as part of the Software Product under the terms of this EULA.

By accepting this license agreement, You agree that You find this EULA to be a fair and reasonable license agreement that is not deceptive, untrue or misleading in any manner. You agree that You have read and considered all of the terms and conditions of the license and believe them to be just and equitable to terms.

You also understand and agree that by accepting this license agreement — or by installing, copying, distributing, using or accessing the Product, You and Your employer, if any, will be bound by these terms and conditions.

If You do not agree to the terms of this EULA, please do not proceed further other than what is necessary to uninstall and remove the Product from Your computer.

## LICENSE GRANT

This section of the EULA describes the rights Licensor is granting to You with respect to the Software Product. The rights described in this section are granted subject to all other terms and conditions of this EULA.

Licensor grants You a revocable, non-transferable, non-exclusive license to install and use the Product on a single computer, or multiple computers or devices, for the purpose of deployment and configuration of Cloud IT Resources (the "License").

The License is subject to charges as set forth in the documentation published on Attini's website. By agreeing to this EULA, You agree to pay the fees according to the pricing model as set forth on Attini's website and associated documentation for utilization of the Product. Initially, Attini will collect data of Your utilization of the Product and invoice You therefore.

If the Licensee is a business entity, then the Product may be used on multiple computers but only on computers of employees of the entity, confined to the scope of the entity's enterprise. If You are a manage service provider, it may also be used by Your customers within their enterprise.

Your continued right to use the Product under this License is expressly conditioned upon Your adherence to the terms and conditions of this EULA. All rights not expressly granted herein are reserved by Licensor.

## RESTRICTIONS

The License for the Product may not be shared, sold, assigned, transferred, re-licensed or sub-licensed.

Licenses cannot be transferred to another entity or another person without Licensor's consent. This includes those situations involving mergers and acquisitions, dissolution or bankruptcy of the entity that originally acquired the License. For the purposes of this paragraph, the term "entity" means any legally created company or organization located in your jurisdiction which has rights and obligations.

## LIMITATIONS ON USE

- (d) Reproducing, preparation of derivative works or distribution of the Product, or
- (e) Copying (except for backup) the Software Product or copying its elements.

If so provided, You agree that Licensor may use technical information that You provide as part of the Support Services for its business purposes, including for product support, marketing and development.
